

# 1 lme4Eigen

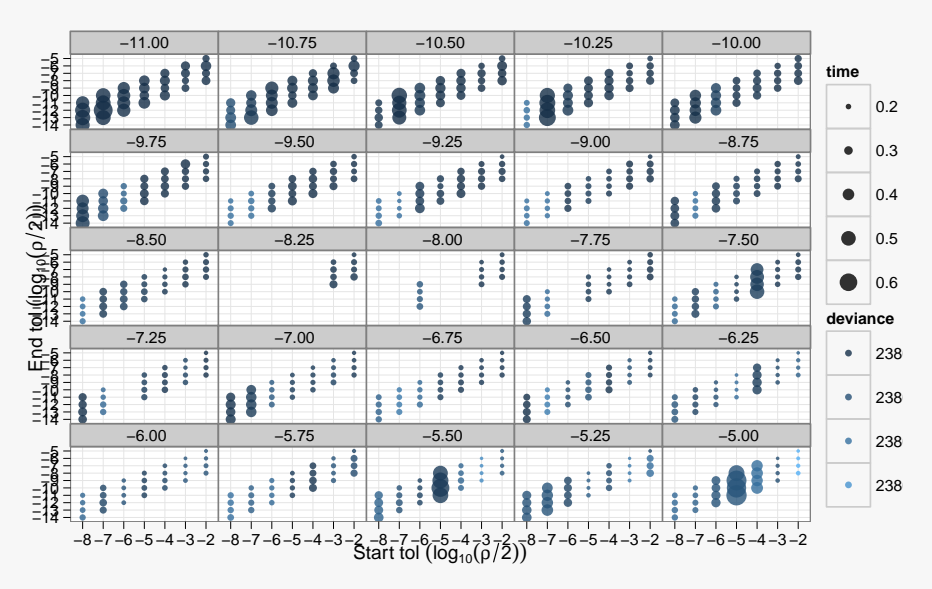

## 1.1 Nelder-Mead

Performance as a function of `tolPwrss`, `nAGQ`:

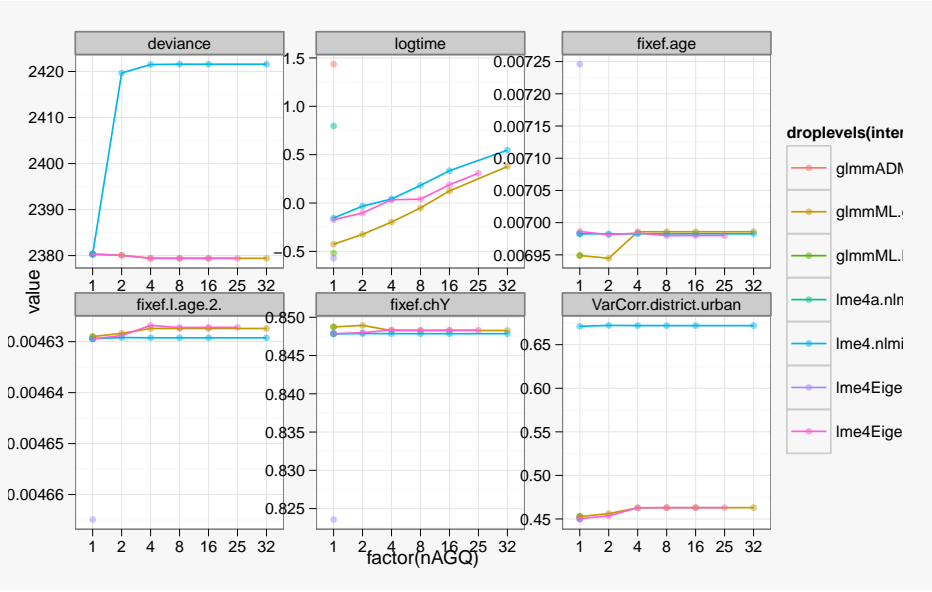

## 1.2 bobyqa

Performance as a function of `tolPwrss`, `rho-beg`, `rho-end`. (This plot has become quite unwieldy since I generated a plot with more detail. Need a better way to display it if we want to bother.)

## 2 Comparison of all approaches

Without lme4:
